

Progress Mediation

Do you find it takes more time each month to complete contract paperwork as intakes increase?

Do your internal processes track your case activity ready for an LAA audit?

Does the administrative overhead make a Legal Aid contract viable?

Maximise your profits by ensuring you get paid for all the Legal Aid work completed.

Monthly returns required by the Legal Aid Agency can take a considerable amount of time. Making sure all the information is correctly reported is essential to maximizing your Legal Aid income.

Progress Mediation takes the stress out of your monthly returns. Our web-based case management system helps you record case details at each stage of the mediation. When the monthly returns are due, a single click is all that is needed to produce the completed LAA reports.

At the same time, you can meet LAA quality standards by demonstrating every client is offered consistent information from every mediator in your practice. You won't need to purchase extra computer equipment, just access to the internet.

"My end of month is such a joy to complete now I have Progress and it enables me to focus more on ensuring everything has been claimed and reviewing my files as a whole."

Helen Pittard, 174 Law
